

JOURNEY TO RELAXATION.™

FANTASY SPAS®

IT'S TIME TO STEP INTO YOUR FANTASY.

We believe in the power of warm water to comfort, relieve, and rejuvenate. That's why we focus our efforts on a clear mission: to make hot tub ownership affordable for anyone looking to introduce hydrotherapy into their life.

It all starts with making quality hot tubs that are easy to own and simple to install. When you own a Fantasy® spa, you join a community of happy hot tubbers who have made their fantasy a reality.

AFFORDABLE

Our hot tubs are rotationally molded, a manufacturing process that involves less labor and material than an acrylic spa, resulting in a durable, unibody hot tub shell designed to look great and last for years.

PORTABLE

High on quality, low on weight, and designed to fit almost anywhere, our spas can easily be moved around your backyard or across town.

SIMPLY PLUG-IN

No need for additional plumbing or special wiring, Fantasy Spas plug in anywhere! Simply fill the hot tub with water, plug it in to a standard 110v outlet, and enjoy!

ENERGY EFFICIENT

With an internal heater, full foam insulation, and locking thermal cover, our hot tubs keep the water hot and ready for your next soak. They also conform to the strict guidelines set forth by the California Energy Commission (CEC), so you can rest easy knowing your hot tub is operating efficiently.

HOT TUBBING IS AS EASY AS 1-2-3!

1. Fill it up.
2. Plug it in.
3. Enjoy!

A man and a woman are sitting in a large, rectangular hot tub on a wooden deck. The hot tub is light grey with a brown cabinet at the bottom. The woman is wearing a black and white patterned swimsuit, and the man is shirtless. They are both smiling and looking at each other. The hot tub has a control panel on the right side. In the foreground, there is a woven basket filled with green towels and a small potted plant. The background shows a lush green garden with trees and a black metal railing.

WATER CARE

CLEAR WATER MADE SIMPLE

Spend more time soaking in crystal clear water with proper water maintenance.

The **Ozone System** mixes concentrated ozone bubbles into the water to neutralize contaminants such as lotions, detergents, and organic waste.

Filters are essential to maintaining clean water and ensuring proper performance of your hot tub. Change out your filters every 3 months* for maximum hot tub performance.
